

Gavin SPENCER
Chief Executive Officer

Launch of Nicox News

Dear Shareholders,

At Nicox, we are continuously looking for ways to improve communication with you. As part of this commitment, while our press releases remain Nicox's official communication channel and the primary source for company disclosures, we are pleased to announce the launch of **Nicox News**. This is a complementary alert service, located in a new section of our website, whose ambition is to provide easier access to key information, in a simple, accessible and mobile-friendly format.

A new way to stay engaged & follow Nicox

Nicox News will provide concise summaries of important company announcements and developments, helping you quickly understand:

- what has happened;
- what it means for Nicox; and
- what may happen next.

The Nicox News section could also feature shareholder Q&As based on publicly disclosed information, comments from the CEO, updates from scientific congresses and conferences, photographs, and other information that may be of interest to our shareholder community.

Our website is already adapted for your phone; this new section is formatted expressly to give you the key information on one screen, with direct links to the other key documents.

Stay informed wherever you are

Whether you are following the progress of our development programs, corporate announcements, scientific activities or other company news, Nicox News helps you stay connected with the latest updates anytime and anywhere.

Access Nicox News directly from your smartphone

To make staying informed even easier, you can now install the Nicox website directly on your smartphone home screen, giving you one-click access to Nicox updates without downloading an application from an app store. This technology is known as a Progressive Web App (PWA).

Once installed, the Nicox icon will appear on your home screen, providing one-click access to the Nicox website. To access Nicox News, just click on the **Latest News** icon on the homepage.

If you choose to enable notifications, you will also be able to receive **push notifications** whenever a new News article is published.

We invite you to visit the **Nicox News** section today and add it to your home screen for the best easy access experience.

How to install the Nicox PWA

1. Visit the Nicox website from your smartphone (you can also follow the same steps to include it on your computer).
2. Select **Install, Add to Home Screen**, or the equivalent option proposed by your browser.
3. Confirm the installation.
4. **Allow notifications** if you wish to receive alerts when new content is published.

If the installation prompt does not appear automatically, you can usually find the option within your browser's menu.

Stay Connected

We greatly value interaction with our shareholders. You are always welcome to reach us at communications@nicox.com, or leave a message on [+33 \(0\)4 97 24 53 00](tel:+330497245300). If you call us, please ensure you leave your contact details.

Important Information

Nicox News articles are provided for general informational purposes only and are intended to offer simplified summaries of publicly disclosed information. They do not replace, modify or supplement Nicox press releases or any other official company communications. Shareholders should always refer to the full press release and other official documents for complete information, including risk factors, disclaimers and forward-looking statements. In the event of any inconsistency between a News article and an official press release, the press release shall prevail. Material information will continue to be disclosed through the appropriate official channels in accordance with applicable regulations.

Kind regards,
The Nicox Team
